## **When Sparks Fly:**

### **5 Steps to Transforming Work Conflict into Bottom Line Results**

Where there are people, there is conflict. Where there is work, there is conflict. That's the reality. The good news is that human conflict is potentially one of the best catalysts for better ideas, better practices and better results. The best news of all is that you and your staff can learn to transform inevitable conflict into a healthier workplace and a better bottom line. This program will show you how.

### **Stop Waging War on Your Colleagues, Clients and Customers: Double Your Business Success!**

Business trends increasingly demand that leaders from the top down have extraordinary collaboration skills. But the old mindset that "work is war" is still alive. Work groups that depend on each other for success often behave as if they are enemies. Marketers still speak of "sharpening marketing weapons" to use on their "target" market. Learn how acting as if work is war could be costing you in people and profits. Identify the adversarial practices that may be sabotaging your partnering vision and strategy. Shift from "us against them" to "us and them, together."
